Break up More Often

Riley Green

When you left the other night,
I didn't think I'd see you again
It was a hell of a fight,
it felt like it was the end
You broke down, we broke up,
we were sayin' it was over
Here I am now,
with your head on my shoulderIf tellin' each other goodbye is gonna lead to a long slow kiss
If you tearin' out my drive is gonna get us makin' love like this
it's crazy to think that yesterday we weren't even talkin'
If this is how it's gonna be,
then baby maybe we should break up more often
You left the charger by the bed,
and that jacket that you always wore
So I shot you that text,
said they're sittin' outside on the porch
But last night you showed up,
I saw you standin' there at my door
Now that dress you had on is layin' on my floorIf tellin' each other goodbye is gonna lead to a long slow kiss
If you tearin' out my drive is gonna get us makin' love like this
it's crazy to think that yesterday we weren't even talkin'
If this is how it's gonna be,
then baby maybe we should break up more oftenAnd I don't even know what the fight was even over
But look at us now, girl we've never been closer
If tellin' each other goodbye is gonna lead to a long slow kiss
If you tearin' out my drive is gonna get us makin' love like this
'Cause it's crazy to think that yesterday we weren't even talkin'
If this is how it's gonna be,
then baby maybe we should break up more oftenLet's break up more often
