

Only Fools Fall in Love

Life Of Dillon

[Verse 1]

I'm not sorry at all, not even a little
Ain't no feelings involved, not even a little
Every time a girl gets close I cut her off soft
Tell her, "No, no, no"
And I'm not sorry at all, not even a little

[Pre Chorus]

Why choose one when you can have all you want?
Why do right when we could be drinking and going all night?

[Chorus]

Only fools fall in love
Only fools fall in love
Only fools fall in love
Only fools fall in love
And I fell for you, I fell for you

[Verse 2]

You won't get me to fall, not even a little (not even a little)
You must not know me at all, not even a little (not even a little)
I know you wanna spend the night
As soon as I'm done, baby, bye, bye, bye (bye, bye, bye)
You won't get me to fall, not even a little (even a little)

[Pre Chorus]

Why chose one when you can have all you want?
Why do right when we could be drinking and going all night?

[Chorus]

Only fools fall in love
Only fools fall in love
Only fools fall in love
Only fools fall in love
And I fell for you, but I fell for you

[Pre Chorus]

Why chose one when you can have all you want?
Why do right when we could be drinking and going out all night?

[Chorus]

Only fools fall in love
Only fools fall in love
Only fools fall in love
Only fools fall in love
And I fell for you, I fell for you

[Outro]

I fell for you, I fell for you, but I fell for you
