

# Every Chance We Get We Run (feat. Tegan & Sara)

David Guetta & Alesso

My way, bet on you, I can't deny you  
I could try  
But I don't want  
Anyone but barely sweet tonight  
Your bed, before you  
Your trust, you know you  
I could choose  
But I don't want anything bad to come of you  
We are born  
We love this on our own  
But every chance we get we run  
Every chance we get we run  
We are shown  
We live this on our own  
But every chance we get we run  
Every chance we get we run  
The tears, spill on you  
It seems, me and you  
You could try  
But you don't want anyone, together spend the night  
A stage before us  
A song A horus  
We could try  
But we don't want anything to change our mood tonight  
We are born  
We love this on our own  
But every chance we get we run  
Every chance we get we run  
We are shown  
We live this on our own  
But every chance we get we run  
Every chance we get we run
