No Ceilings
Wait a minute
Wait a minute, where you going?
Ain't my business where you going
I just want some before you go and
Wait why you in your feelings when I wanna feel something?
Why you in your purse when I'm tryin' to tell you something?
Why you on your phone after 2 in the morning?
Who the fuck you talking to at 2 in the morning girl?
I swear I'm wit my side bitch baby
Cuz I ain't got time for your matrix yeah yeah yeah
And if the side bitch start acting crazy
I'ma run to the next side bitch and until the last bitch don't chase me baby
Yeah, feel like its over, you know its over with
You get my feelings in time and shit
I'm in my feelings cause it's over
And you know right is right, so come over tonight
Don't want fuss and fight let's get right
Right now a nigga feeling so nice
And I feel like I owe you something, let me show you something girl
And it's gon be nice
Right now a nigga feeling so nice Feel like I owe you something, let me show you something
girl I'm nice, T I'm nice, E I'm nice, Hood I'm nice, Steve I'm nice
Hold up, I think these pills give me extra emotions
Hold up, I think they kicking and I'm going through the motions yeah, yeah, yeah
I feel like celebrating, what you doing I'm bout to come over?
Your home girl there, I really feel like I can take both of em, oh my
Can I ask why, you give me that eye, every time we face time?
That's cause you know why, I'ma come back reply with don't you move a muscle I'm bout to
come by
Every time, like we on rewind, back it up rewind
Like (Missy Elliot Reference)
We fuck on Versace you watch me cause I got the mirror on top me
And I be just going in like Rocky
That dick got you snoring, I record you send you a copy
You be so embarrassed, you say don't mock me
And I be like that's our secret that I keep
And I feel like pouring some lean in this sti-re
Said I feel like pouring some lean in this sti-re Hold up
You know I'm the nicest, this dick need a license
But why did you leave me I swear it's a crisis If you ever need me I come quick as lightning
Don't give him no pussy if he cum quick as lightning

Just saw your sis and I got so excited
She tell me you just celebrated sobriety
But you didn't invite me
That's that bullshit, I need a lighter
You should be nicer
I swear I'm wit my side bitch baby, hold up
Cuz I ain't got time for your matrix yeah yeah yeah, hold up
But that's ok cause I'm nice, they mad and I'm nice
No ceilings
