

# Wild Beach

## Doja Cat

Let the waves carry you down to my doorstep  
Rest your weary souls on my shores, yeah  
Sand and the sun and the tropical breeze, yeah  
You can get away from the sharks in the seas, yeah Wyl' around, take a name  
Stars is out, freaky time  
Sink your ship, take a dip  
Coconut, take a sip  
Wildfire, dance around  
Wear my gold like a crown  
Where we've been, given doubt  
Where we are? In the wild now  
Wild beach  
Can't control these wild things  
Can't you see you're drowning  
Tryna tame a wild beast  
I'm a wild beach  
It's like you're tryna tame a wild beast  
I'm a wild beach  
I'm a wild beach, I'm a wild beach Boy you must be crazy  
I must be out of my mind  
Feel like I'm stranded but it go hand in hand  
'Cause we free to live that life  
Now, see that though, pretty in a drop top  
We gon blow palm trees in a backwood  
He on both knees, make it pop-pop  
I don't need no doors, mmm crib hop  
Pretty, ion need more hoes, see no evil  
Even when she won't go  
Dishoom chica with the neon coat  
Got a vision of the sun, I just see more gold and  
Wyl' around, take a name, stars is out, freaky time  
Sink your ship, take a dip, coconut, take a sip  
Wildfire, dance around, wear my gold like a crown  
Where we've been, given doubt  
Where we are? In the wild now Wild beach  
Can't control these wild things  
Can't you see you're drowning  
Tryna tame a wild beast  
I'm a wild beach  
It's like you're tryna tame a wild beast  
I'm a wild beach  
I'm a wild beach, I'm a wild beach Everyday it feels like the weekend

Everyday could be summer season  
Relax your mind with me all weekend  
Under jungle, roll in my leaves, yeah  
Everyday it feels like the weekend  
Everyday could be summer season  
Relax your mind with me all weekend  
Under jungle, roll in my leaves, yeah
