

All the Way Down

Dive

Why do I feel that I'm the only one who tries
To find the little bit of good that comes from life
I'm sick of fighting just to have my way
Cause I'm playing to lose, when I'm playing your game
And I am going, I am going
All the way down there's no way to save me
Why can't I be ok?
I am all the way down, you will never take me
All the way, all the way down
You try to tell me it will be ok
But do you think that all these thoughts just go away?
Try to listen, try to understand
What you're getting in life is what I never had
And I am going, I am going
All the way down there's no way to save me
Why can't I be ok?
I am all the way down, you will never take me
All the way, all the way down
And I am running dry on confidence
And I'm running low on hope
I'll dig until my fingers break
To get out of this whole
My bodies feeling empty
There's nowhere left to go
I am losing, I am failing
All the way down there's no way to save me
Why can't I be ok?
I am all the way down, you will never take me
All the way, all the way down
All the way down there's no way to save me
Why can't I be ok?
I am all the way down, you will never take me
All the way, all the way down
All the way down there's no way to save me
Why can't I be ok?
I am all the way down, you will never take me
All the way, all the way...
Down
