

Love Someone

Brett Eldredge

Oh baby, would you look right there
The way the sun is hittin' your hair
The way the world just stopped right here
In mid-air, I don't ever wanna move You put the cool in the breeze
You put the weak here in my knees
You put me right where I'm supposed to be
In your blue-eyed sea
And I wanna sail away 'Cause when I wake up in the middle of the night
You're holdin' me so tight
Take whole of me, my oh my
Sure feels good to love someone
You laugh at the way I dance
You smile when you hold my hand
I look at you and I understand
Sure feels good to love someone You knock me out kiss by kiss
I need you baby, sip by sip
Sit back and let me drink you in
I'm fallin' for you
Over and over and over again When I wake up in the middle of the night
You're holdin' me so tight
Take hold of me, my oh my
Sure feels good to love someone You laugh at the way I dance
You smile when you hold my hand
I look at you and I understand
Sure feels good to love someone
Everywhere I want to go and
Everywhere I want to be at
Everywhere I've ever been
Everything I'll ever need
Is sittin' right here next to me When I wake up in the middle of the night
You're holdin' me so tight
Take whole of me, my oh my
Sure feels good to love someone You laugh at the way I dance
You smile when you hold my hand
I look at you and I understand
Sure feels good to love someone
Sure feels good
