

Out of My Head (Acoustic)

The Griswolds

Dont call my phone, cause nobodys home
Its all your fault, I want you out of my head
My head
My head, my head, my head You got the reasons wrong
You cant complain, you cant complain, you dont have anyone to blame
I got the message
I realized, i realized, i didnt read between the lines
Sweet decisions gone
There was a time, there was a time your eyes would give me butterflies
But now the seasons gone
You cant deny, you can deny, i was the reason we survived
Hope you understand
You fucked it up
Dont call my phone, cause nobodys home
Its all your fault, i want you out of my head
My head
My head, my head, my head When i hear your song
It reminds me, it reminds me of a perfect summer night
We danced to elton john
And i cant pretend, i cant pretend i ever wanted this to end
Hope you understand
I did everything i can with my two hands Dont call my phone, cause nobodys home
Its all your fault, i want you out of my head
My head
My head, my head, my head Hope you understand
This wasnt everything that i have planned
I hope you understand
I did everything i can with my two hands
Dont call my phone, cause nobodys home
Its all your fault, i want you out of my head
My head
My head, my head, my head Dont call my phone, cause nobodys home
Its all your fault, i want you out of my head
My head
My head, my head, my head
