

Bring It Back

Shawn Mendes

Taking it slow isn't easy, if as far as you go
Is only half as far as you and I both know, yeah
Coming up from above, a little something
And it's only because I don't ever wanna see you in love
But I know That you've been coming off strong lately
And I can feel it there
You been thinking that maybe you got a, another shot at me
Thinking possibly somehow, but not now
And it's been spinning around like a hurricane
And the sound of the thunder
That's beating my head to the ground
But I, I know That I can't go back to this, to her
To what we used to have
It's black and burnt
My God, this is so sad
It will only make things worse
If we bring it back, woah yeah yeah Now I mean, if you believe
That there is something still between you and me
Then baby, honestly yeah
You're not the one for me
And I can't go back to this, to her
To what we used to have
It's black and burnt
My God, this is so sad
It will only make things worse
If we bring it back
If we bring it back, oh
If we bring it back, oh
If we bring it back
If we bring it back
