

# His Memory Walks On Water

Bradley Walker

[Verse 1]

His car went off the highway straight into Crawley's Lake  
But ask anybody in this town, that man died ten years too late  
Drowned himself in a whiskey glass  
Took his family to hell and back  
Who could forgive a man like that?  
There's his youngest daughter standing in the pouring rain  
Placing a single rose on her Daddy's grave

[Chorus]

'Cause she remembers him like John Wayne in a Cadillac  
She'll only see the best in him now looking back  
So she can finally have a father who's gentle, kind, and good  
She'll let his memory walk on water since he never could

[Verse 2]

Sometimes in the morning 'fore he'd have that first drink  
He'd play like a cowboy, bounce her on his knee  
She remembers the way he'd laugh  
Marlboro cigarette hangin' from his mouth  
Standing by his headstone she's gonna close her eyes  
Let every other memory die

[Chorus]

So she remembers him like John Wayne in a Cadillac  
She'll only see the best in him now looking back  
So she can finally have a father who's gentle, kind, and good  
She'll let his memory walk on water

[Outro]

So she can be proud to be his daughter  
She'll let his memory walk on water  
Since he never could
