

# 2 In A Million

Steve Aoki, Sting & SHAED

You said what are the chances  
We'd find each other  
Through all the madness? I don't need an answer  
I've always heard that  
These things just happen I know what you're feelin', I do  
'Cause you know I'm feelin' it too  
No pill gets me higher than you  
Hardest part is we ain't goin' home yet How many people in the world  
Out looking for a love like this tonight?  
How many people in LA  
Out there just searching for a sign?  
How many people in the crowd  
And I still wind up by your side?  
Never never let you go  
Never never let you go  
We're two in a million  
We're two in a million  
(Hey, hey)  
We're two in a million  
We're two in a million (Hey, hey)  
We're two in a million  
We're two in a million  
(Hey, hey)  
We're two in a million  
We're two in a million We're getting faster  
I can't imagine  
Wanting to slow down  
Baby, you're getting closer  
Testing the water  
I wanna know how deep it goes  
I know what you're feelin', I do  
'Cause you know I'm feelin' it too  
No pill gets me higher than you  
Hardest part is we ain't goin' home yet How many people in the world  
Out looking for a love like this tonight?  
How many people in LA  
Out there just searching for a sign?  
How many people in the crowd  
And I still wind up by your side?  
Never never let you go  
Never never let you go We're two in a million  
We're two in a million

(Hey, hey)  
We're two in a million  
We're two in a million(Hey, hey)  
We're two in a million  
We're two in a million  
(Hey, hey)  
We're two in a million  
We're two in a millionI know what you're feeling, I do  
'Cause you know I'm feeling it too  
No pill gets me higher than you  
HowHow many people in the world  
Out looking for a love like this tonight?  
How many people in LA  
Out there just searching for a sign?  
How many people in the crowd  
And I still wind up by your side?  
Never never let you go  
Never never let you goWe're two in a million  
We're two in a million  
(Hey, hey)  
We're two in a millionWe're two in a million  
(Hey, hey)  
We're two in a million  
We're two in a million(Hey, hey)  
We're two in a million  
We're two in a million  
(Searching for a sign)
