

Hard to See

Five Finger Death Punch

[Verse 1]

I'm growing so distant
Nothing makes sense to me anymore
I'm learning to resist
Becoming more than you ever were

[Chorus]

I can't explain
What's come over me (come over me)
I can't explain
Why it's so hard for me, so hard to see your side

[Verse 2]

Projecting all my anger
I can't seem to get this through to you
The walls they're closing in
I dare you to walk in my shoes

[Chorus]

I can't explain
What's come over me (come over me)
I can't explain
Why it's so hard for me, so hard to see your side

[Bridge]

Your side
I won't see your side

[Chorus]

I can't explain
What's come over me (come over me)
I can't explain
Why it's so hard for me, so hard to see your
I can't explain
What's come over me (come over me)
I can't explain
Why it's so hard for me, so hard to see your side

[Outro]

I won't see your

Your side
