

Electric (feat. Khalid) [R3hab Remix]

[Alina Baraz](#)

Darker than the ocean, deeper than the sea
You've got everything, you've got what I need
Touch me, you're electric, babe
Move me, take me from this place
Movin' to the tempo, show me what it takes
Speedin' up my heartbeat, playin' in the face
Kiss me, we're a fire, babe
Love me, take me to outer space
Kiss me, we're a fire, babe
Love me, take me to outer space
Covered in your water and I'm feelin' like a summer breeze
Submitted on the power and you brought me to my knees
Use me, you're electric, babe
Move me, take me all the way
Whisper in my ear, I'm the only one you're lovin' on
Take advantage of the moment, you're the only one that I want
Kiss me, we're a fire, babe
Love me, take me to outer space
Kiss me, we're a fire, babe
Love me, take me to outer space
Melting like ice on a summer day
Hold me like you mean it, take me far away
Bodies movin' and temperature rising
Take me to the top and watch me fall in
Kiss me, we're a fire, babe
Love me, take me to outer space
Kiss me, we're a fire...
