

Sober

James Arthur

When I look at you
It's like I've been baptised
It's so spiritual
Like I've been sanctified
Oh I'm drunk in love
And you're Beyoncé Let's get it on
All I gotta say is
I, I, I, I
I feel like a rolling stoner
Don't think I can keep my composure
Girl until the night is over
I don't have a thought that is sober Won't you take it off
And leave it all behind
If you let me darling
I could ease your mind
Baby making love with you is all I want Let's get it on
All I wanna say is
I, I, I, I I feel like a rolling stoner
Don't think I can keep my composure
Girl until the night is over
I don't have a thought that is sober
Heat me up like a soup, baby
Smoke me up till your pupils' crazy
Double vision, everybody singing in sync
R. Kelly, remix to ignition
So many women, yeah living in the minute
Their stripping in my living room
I wanna be with you
You're just different like Lana Del Rey
You could play me all day, like a video game
Like a video game
All I gotta say I feel like a rolling stoner
I've had too many Coca Cola's
Living the la vida loca
I don't have a thought that is sober
I feel like a rolling stoner
Don't think I can keep my composure
Girl until the night is over
I don't have a thought that is sober
