

I Got Time

Bebe Rexha

I just wanna do what I want (what I want, just)
I don't want no one to tell me nothing (nothing, no)
I just wanna live how I want (how I want, woo)
I don't wanna hear nothing about it
'Cause I got time, I got time
I'll go and get high if I wanna get high
Love who I want
'Cause I got time, I got time
'Cause I got time, I got time, I got time
And right now I ain't worried 'bout none
Yeah, right now I ain't worried 'bout none
Yeah, right now I ain't worried 'bout none
I do what I wanna
I run up the corners
We mix marijuana with a cup of liquor
All my friends are monsters
I don't need no sponsors
Spend this money now 'cause I might not be here tomorrow
I mix match designers
I'm a fashion statement
I'm elevated high but I started on the pavement
Yeah, I came from nothing
Turned it into something
Look into the mirror tell myself "I'm fucking awesome"
I just wanna do what I want (what I want, just)
I don't want no one to tell me nothing (nothing, no)
I just wanna live how I want (how I want, woo)
I don't wanna hear nothing about it
'Cause I got time, I got time
I'll go and get high if I wanna get high
Love who I want
'Cause I got time, I got time
'Cause I got time, I got time, I got time
And right now I ain't worried 'bout none
Yeah, right now I ain't worried 'bout none
Yeah, right now I ain't worried 'bout none
I don't hear opinions
I don't ever listen
Haters wanna see me fall
Tell 'em "Keep waitin"
I don't have no patience
I'm not into fake shit

Everybody in my crew, we fucking amazing
Yeah, I ball, yeah, I'm ballin' like Lebron
100, 000 for the charm, I'm so irresponsible
Momma said take it easy
But I don't never take it easy
I just wanna do what I want (what I want, just)
I don't want no one to tell me nothing (nothing, no)
I just wanna live how I want (how I want, woo)
I don't wanna hear nothing about it
'Cause I got time, I got time
I'll go and get high if I wanna get high
Love who I want
'Cause I got time, I got time
'Cause I got time, I got time, I got time
And right now I ain't worried 'bout none
Yeah, right now I ain't worried 'bout none
Yeah, right now I ain't worried 'bout none
