

Howling At Nothing

Nathaniel Rateliff & The Night Sweats

[Verse 1]

Some are waving it around
Someone carried me home
One was never noticed sleeping on the floor
But I know we were there

[Verse 2]

Some were playing around
Some were dipping so low
Never seemed to matter as the night slipped away
Cause there was soul in the air

[Chorus]

We were howling at the moon
We were shaking our hips
Danced until we flat out falling into bed
But I won't let you go

[Verse 3]

So let me in or let me down
Let me lay here so slow
Baby just keep holding got to move our feet
Cause you know it ain't end

[Verse 4]

Step it in or step it out
Cut it all in and run
Kept on 'til it mattered baby I don't even see
But I know we were there

[Chorus]

We were howling at the moon
We were shaking our hips
And we danced until we flat out falling into bed
But I won't let you go

We were howling at the moon
We were shaking our hips
And we danced until we flat out falling into bed

And I won't let you go

Now we danced until we flat out falling into bed
And I won't let you go
