

# In the Bayou

Laine Hardy

You've been living too long in a concrete world  
Well I'll tell you right now I got plans for you city girl  
We'll take a pontoon out in the middle of the night  
Do a little frogging till we see sunrise  
I'll be your crawl daddy crawling just to kiss your feet  
You'll be my sugar momma honey down in New Orleans  
'Cause I got the rhythm  
And you get the blues  
I sweep you right off of them high heel shoes  
You live on the northside  
But I'm from the south

I'm gonna show you what the bayou's about Singing, come on, come on, let your hair fall down

Blue-eyed baby, come and dance with me now  
You know, you know that you need it too  
'Cause there ain't no living soul who don't like what we do  
In the bayou  
Muddy water lovin' people who don't mind the heat  
I take you off and through the woods, no shoes on your feet  
You'll be singing "ç'est la vie" with some creole soul  
And we'll be rocking on the river  
'Cause that's how we roll  
And I got the rhythm  
You go get the blues

It's always a party in the bayou Darling, come on, come on  
Let your hair fall down

Blue-eyed baby come and dance with me now  
You know, you know that you need it too  
'Cause there ain't no living soul who don't like what we do  
In the Bayou Wooh!  
Woah-oh-woah-oh-woah  
Baby me and you  
Don't you wanna see something new  
Woah-oh-woah-oh-woah  
Me and Y-O-U

Rolling down the river on the Bayou Singing, come on, come on  
Let your hair fall down

Blue-eyed baby come and dance with me now  
You know, you know that you need it too  
'Cause there ain't no living soul who don't like what we do  
In the bayou  
In the bayou  
Aw naw

Wooh!
