

# When I've Been Drinkin'

Jon Pardi

I was a little outta my mind  
Last night when I called you up  
I'm sorry if I upset you  
With all that missin' you stuff I was just too far gone and all alone  
When that phone started callin' your name  
And I know it's against the rules, girl  
But tequila makes me do dumb things I was just drunk  
Dialin' your number  
Hopin' that you just might wanna come over  
I might have said a little too much  
You know I don't think before I talk  
When I got a good buzz  
Can't be held responsible for what I was sayin'  
You know I say a lot of things  
When I've been drinkin'  
Yeah and I was drinkin'  
Can't believe what I said  
But at least I made you laugh  
After all this time  
Since we said goodbye  
I'm glad I can still do that I was just drunk  
Dialin' your number  
Hopin' that you just might wanna come over  
I might have said a little too much  
You know I don't think before I talk  
When I got a good buzz  
Can't be held responsible for what I was sayin'  
You know I say a lot of things  
When I've been drinkin'  
Yeah and I was drinkin' And I can't guarantee  
That there won't be  
Another night  
When I be drunk  
Dialin' your number  
Hopin' that you just might wanna come over  
I might have said a little too much  
You know I don't think before I talk  
When I got a good buzz  
Can't be held responsible for what I was sayin'  
You know I say a lot of things  
When I've been drinkin'  
Yeah and I was drinkin'
