

Drink On It

Blake Shelton

Hey girl, hey where ya goin'?
Come back and sit back down You look too good to be heading home so early now You say you
gotta work tomorrow Got a lot on your mind Let me buy another round Girl I think you and I
should just Drink on it Put our heads together and think on it Maybe later on we can sleep on
it But for right now Girl we just need to drink on it We can talk rocket science Jesus or
politics How your boyfriend cheated on you Man he sounds like such a prick I could use another
whiskey And your Cosmo's gettin' low While we're trying to figure out The next place we should
go We can drink on it Put our heads together and think on it Maybe later on we can sleep on it But
for right now Girl we just need to drink on it This place is closing down But I don't wanna
quit Gotta good thing going girl Let's find out what it is And drink on it Your place or mine Girl
we can drink on it Dust off a bottle and drink on it Feels like we're doin' something right Let's
find a corner of the night Where you and I can just drink on it Put our heads together and think
on it Maybe later on we can sleep on it But for right now Girl we just need to drink on it Might
make a memory that we won't forget So let's just drink on it Yeah Mmmm Drink on it Sleep on
it We can just drink on it
