

# D.A.M.

## Fetty Wap

Ayy, slide through in them matching Benz's  
Them all white things  
They gon' hate but what the fuck they gon' say  
Zoovier You are so damn fine  
I'm so damn glad you're mine  
And you stay on my mind  
I think about you all the damn time  
You are so damn fine  
I'm so damn glad you're mine  
And you stay on my mind  
I think about you all the damn time  
I have some problems and I think that you could help me  
It's been a while since a nigga had some action  
I'mma rock your boat, just let me be the captain  
I just have a question, listen to what I'm asking  
Baby let me take you out, would you like it if I kissed you now?  
Ain't tryna force you so let me know if it's workin'  
I'mma take you down, swimming in your ocean  
Can you feel me when I'm penetrating  
You are now in tune, this is Fetty's station  
Give it to me now, I'm so tired of waiting  
I been hella patient, losing all my patience  
Give it to me now, I'm so tired of waiting, yeah Ayy, and you are so damn fine  
Love her slowly, hit it once then rewind  
Ayy, and you are so damn fine  
Love her slowly, hit it once then rewind  
Zoovier  
You are so damn fine  
I'm so damn glad you're mine  
And you stay on my mind  
I think about you all the damn time Okay she bad and she know it  
And she don't ever ask for bread, cause she know I'mma throw it  
Ain't gotta ask her if its wet, cause I know its the ocean  
And right after we sex, I don't leave I just hold her  
I don't leave I just hold her  
I treat my girl like a Queen, she gets whatever she needs  
And when I tell her I'm hungry she says "Boy get on your knees"  
Go to work, girl I feast, take me away from the streets  
Cause she got just what I need, she my drug, I'm a fiend, yeah  
I even see her up in my dreams, yeah  
Counting money while you rolling my weed  
And all I ask is her loyalty, yeah

And she can get whatever she want from me, yeah  
Zoovier You are so damn fine  
I'm so damn glad you're mine  
And you stay on my mind  
I think about you all the damn time
