

Cannonball

AWOLNATION

Well, I shoot like a cannonball
Well, I shoot like a cannonball
Yeah, I shoot like a cannonball
And I'm missing my baby
Well, I shoot like a cannonball
Well, I shoot like a cannonball
Yeah, I shoot like a cannonball
And I'm missing my baby I shoot like a cannonball
Fuck like an animal
Breathe in your love through my lungs like an addict does
I shoot like a cannonball
Fuck like an animal
Breathe in your love through my lungs like an addict does
I shoot like a cannonball
Fuck like an animal
Breathe in your love through my lungs like an addict does
I shoot like a cannonball
Fuck like an animal
Breathe in your love through my lungs like an addict does
Shoot like a cannonball
Well, I shoot like a cannonball
Yeah, I shoot like a cannonball
And I'm missing my baby I shoot like a cannonball
Fuck like an animal
Breathe in your love through my lungs like an addict does
I shoot like a cannonball
Fuck like an animal
Breathe in your love through my lungs like an addict does
I shoot like a cannonball
Fuck like an animal
Breathe in your love through my lungs like an addict does
I shoot like a cannonball
Fuck like an animal
Breathe in your love through my lungs like an addict does
Woah, woah
I wear my heart on my sleeve cause it's all that I know
We wear out hearts on our sleeves cause it's all that we know
I wear my heart on my sleeve cause it's all that I know
We wear out hearts on our sleeves cause it's all that we know
I wear my heart...Woah, woah I shoot like a cannonball
Fuck like an animal
Breathe in your love through my lungs like an addict does
I shoot like a cannonball

Fuck like an animal
Breathe in your love through my lungs like an addict does
I shoot like a cannonball
Fuck like an animal
Breathe in your love through my lungs like an addict does
I shoot like a cannonball
Fuck like an animal
Breathe in your love through my lungs like an addict does Well I shoot like a cannonball
Yeah I shoot like a cannonball
Well I shoot like a cannonball
Yeah I shoot like a cannonball
And I'm missing my baby
