

No Captain (feat. POLIÇA)

Lane 8

When it touch it feel like heaven
When it kiss it kiss to save
I ain't circling round for saviors
Live my life a certain way I don't need a kind of captain
Grabbing back and I don't beg
Working harder for this living
What you got that you can trade? Melody for lost love
I can sing that tune
This will be your last straw
I was so good to you I don't want to hear how you are different
I don't want to hear how we're the same
When you gonna show me how you love me
That's the way to make me stay
Melody for lost love
I can sing that tune
This will be your last straw
I was so good to you When it touch it feel like heaven
When it kiss it kiss to save
I ain't circling round for saviors
Live my life a certain way I don't need a kind of captain
Grabbing back and I don't beg
Working harder for this living
What you got that you can trade? Melody for lost love
I can sing that tune
This will be your last straw
I was so good to you
I don't want to hear if you are different
I don't want to hear how we're the same
When you gonna show me how you love me
That's the way to make me stay
