

Die Tonight

Charli XCX

Oh ooh, I could die tonight
'Cause I've got the magic in my veins,
and I'm going hard with all my friends
I could die tonight! Let's get this started, pulse up at the party
Rolling Stones on my phone
Hanging in your bedroom, feeling like we're rock 'n roll
End of the song, but up and down like lovers
Laying under stars to shine
Hold up pom-poms now, don't you know that it's our time?!
Oh ooh, I could die tonight
'Cause I've got the magic in my blood,
and I'm staying till the sun comes up
Oh ooh, I could die tonight
'Cause I've got the magic in my veins,
and I'm going hard with all my friends
I could die tonight! Back at the hotel, ringing the doorbell
Now we're feeling so alive,
Come to the townfall, jump like we're about to fly
No one's leaving, 'bout to blow the ceiling
When we're turning out to town.
Wake up in the morning, gonna do it all again
Oh ooh, I could die tonight
'Cause I've got the magic in my blood,
and I'm staying till the sun comes up
Oh ooh, I could die tonight
'Cause I've got the magic in my veins,
and I'm going hard with all my friends
I could die tonight!
Oh ooh, I could die tonight
'Cause I've got the magic in my blood,
and I'm staying till the sun comes up
Oh ooh, I could die tonight
'Cause I've got the magic in my veins,
and I'm going hard with all my friends
I could die tonight!
