

# Everybody

## Logic

Okay I was gone for a minute but I'm back now  
Sit the fuck back down  
Seem like everybody nowadays Hollywood  
Oh it's like that now?  
I'ma show you mothafuckas how to act now  
I'ma show em how to act  
I'ma show em how to act Okay now picture little Bobby just a youngin' runnin' round  
With his mans, hammer in his hands, feelin' like the man  
Run, mothafucka, run  
Before the popo get the gun, put it to your brain like goddamn!  
Everybody know you ain't about it  
Everything you talk about I know I can live without it  
Red light, stop. Green light, go!  
Everything ain't what it seem like  
Mothafucka I know!  
Hold up, what you mean, where you been?  
Bitch I been in  
This is merely the beginning again  
What you been living in?  
A box, under the bridge, like Anthony Kiedis?  
Looking for something to complete us  
And maybe lead us, fuck an elitist  
Hell of a long way from equal is how they treat us  
Body of a builder with the mind of a fetus  
Turn on the television and see the vision they feed us And I wish I could erase that, face  
facts Everybody people, everybody bleed, everybody need something  
Everybody love, everybody know, how it go  
Everybody people, everybody bleed, everybody need something  
Everybody love, everybody know I been knockin doors down like a Jehovah witness  
God as my witness, I'm with this  
But on the real I think I need another witness!  
If it was 1717, black daddy, white momma wouldn't change a thing  
Light skin mothafucka certified as a house nigga  
Well I'll be God damned, go figure  
In my blood is the slave and the master  
It's like the devil playin spades with the pastor  
But he was born with the white privilege!  
Man what the fuck is that?  
White people told me as a child, as a little boy, playin with his toys  
I should be ashamed to be black  
And some black people look ashamed when I rap  
Like my great granddaddy didn't take a whip to the back

Not accepted by the black or the white  
I don't give a fuck, praise God, I could see the light  
Everybody talkin' 'bout race this, race that  
I wish I could erase that, face facts Everybody people, everybody bleed, everybody need  
something  
Everybody love, everybody know, how it go  
Everybody people, everybody bleed, everybody need something  
Everybody love, everybody know Okay I was gone for a minute but I'm back now  
Sit the fuck back down  
Seem like everybody nowadays Hollywood  
Oh it's like that now?  
I'ma show you mothafuckas how to act now  
I'ma show em how to act  
I'ma show em how to act
