

Don't Come Crying

This Is Not America

[Chorus]

So don't come crying to me
The killing has begun
The silence is for real
And love has come undone (don't come crying to me)

[Verse 1]

You say you love me but in a tone
And I understand I'm on my own
You say you love me and then your hand
Lets go of mine, and I understand
That there are times to say goodbye
Times to say hi
Well don't come crying to me

[Chorus]

The killing has begun
The silence is for real
And love has come undone

So don't come crying to m?
The killing has begun
The sil?nce is for real
And love has come undone (don't come crying to me)

[Verse 2]

You're turning me on
You're bringing me down
You're feeling me up
And you're pissing me off

You're leading me on
You're freaking me out
It's all a mess, and I don't understand it

You say you love me and then your eyes
Reveal to me that you're all twisted lies
You say you love me but with a breath
That tells me that you're all full of shit (shit)
And there are times to say goodbye
Times to say hi
Well don't come crying to me

[Chorus]

The killing has begun
The silence is for real
And love has come undone

So don't come crying to me
The killing has begun
The silence is for real
And love has come undone

[Verse 3]

You're turning me on
You're bringing me down
You're feeling me up
And you're pissing me off

You're leading me on
You're freaking me out
It's all a mess, and I don't understand it

You're turning me on
You're bringing me down
You're feeling me up
And you're pissing me off

You're leading me on
You're freaking me out
It's all a mess, and I don't understand it
