Divine Sorrow (feat. Avicii)

Wyclef Jean

Dearrie blossom
I've gone down to old rock bottom
Now I know the love in my heart was trueDivine sorrow
I thank you for the joy that follow
Back then my friend
If only I knew
It is harder when you love beyond belief
But I'm a fool to let you go
So this is for you my love
We will never
We will never have a change of mind
We belong together
We will never
We will never be the weary kind
We sing our sorrows away
We sing our sorrows away
We sing our sorrows away
Divine blessing
I wish I would have heard your lesson
Now I know your words were my only truth
I'm just venting
Or maybe I'm done confessing
Back then my friend
If only I knew
It is harder when you love beyond belief
But I'm a fool to let you go
So this is for you my loveWe will never
We will never have a change of mind
We belong together
We will never
We will never be the weary kind
We sing our sorrows away
(Yeah Yeah Ohh)
We can make it trough judgement day
We won't go fading away
All I ever know must be heaven where you come from
We can make it trough cloudy skies
All I even know must be heaven where you come from
Yeah!
