

Take a Bow

This Is Not America

[Verse 1]

Come drive with me
Let's take a ride in my car
And you can take off your clothes
And show me who you are

[Chorus]

I got a mind of my own
I don't like it much if I don't make it home
I start shaking, glass starts breaking
Why is this happening to me?

[Verse 2]

Sail away with me
Let's take a trip 'round the world
And we'll be who we are
Just a boy and a girl

[Chorus]

I got a mind of my own
I don't like it much if I don't make it home
I start shaking, glass starts breaking
Why is this happening to me?

I got a mind of my own
I don't like it much if I don't make it home
I start shaking, glass starts breaking
Why is this happening to me?
