

# Gone Girl

Morgan Wallen

[Verse 1]

That DJ on the side stage ain't played one song I like  
It's all craft beer served in here, can't even get a cold Bud Light  
I see you sittin' over there barely sippin' your drink  
Lookin' like you might need a little scenery change  
Got a spot I've been hittin' since back in the day  
What ya say we slip away and say the hell with this place?

[Chorus]

Go get a little gone girl on a black Jack label  
In the middle of a dirt road dance floor  
Way out, nobody in our business  
Just us and the crickets and the good Lord  
Stars gonna burn on out, moon gonna sneak on down  
We could have a hell of a time, I'll get to makin' you mine  
With the rest of what's left of the night, 'til it's gone girl

[Verse 2]

Gone like that six pack we gonna tip back on my hood  
Gone like our Levis, gonna hang 'em on an old dogwood  
Yeah the thought of you and me in the back 40  
With the trees and the bees and the birds  
Can't think of nothin' better but baby no pressure  
Really all you gotta do is say the word

[Chorus]

We can get a little gone girl on a black Jack label  
In the middle of a dirt road dance floor  
Way out, nobody in our business  
Just us and the crickets and the good Lord  
Stars gonna burn on out, moon gonna sneak on down  
We could have a hell of a time, I'll get to makin' you mine  
With the rest of what's left of the night, 'til it's gone girl  
'Til it's gone girl

[Bridge]

So baby let's roll, take a few backroad curves  
Roll 'til we find a little heaven on Earth

[Chorus]

Let's get a little gone girl on a black Jack label  
In the middle of a dirt road dance floor  
Way out, nobody in our business  
Just us and the crickets and the good Lord  
Stars gonna burn on out, moon gonna sneak on down  
We could have a hell of a time, I'll get to makin' you mine  
With the rest of what's left of the night, 'til it's gone girl  
Take a few backroad curves, yeah 'til it's gone girl  
Find a little heaven on Earth, 'til it's gone girl
