

# My Flame

Bobby Caldwell

[Verse 1]

How long  
How long have you been away  
Oh how long  
I can't find the words to say

[Pre-Chorus]

I've kept your picture on my shelf  
Only there to remind myself  
I have always cared for you  
Do you still love me

[Chorus]

Oh my flame  
Some things will never change  
I still hold your vision in my mind  
Say you still love me

[Verse 2]

My love  
Will I ever make you see  
That somehow  
You are still apart of me

[Pre-Chorus]

Maybe we can compromise  
Cause our love just can't be disguised  
I have always cared for you  
Do you still love me

[Chorus]

Oh my flame  
Some things will never change  
I still hold your vision in my mind  
Say you still love me  
Oh my flame  
Some things will never change  
I still hold your vision in my mind  
Say you still love me

[Outro]  
Oh my flame  
Some things will never change  
I still hold your vision in my mind
