

Spazz

Lecrae

I might just spazz on them, knowing that they don't know me
I make all of my homies 40 deep, it's how we rollin
We pull up on your block and we ain't got no block .40's
No nina-millimeter, hope you never have to meet her
Put a rolla in a meter, this one right here's a cheater
Tryin' to get up in my zone, watch me hit this wide receivers
If you ain't a believer I'm looking for conversion
My 16 is a sermon, get you hands up in this service
I know when I bring that realness, go hard I've got the ...
They're telling me I'm sick, I already know I've got that illness
That ate away up heavy, my adrenaline has got me sweaty
I don't think these people ready, I'm a spazz if they let me.
Tell someone come and get me, cause if they get me started
I'm Leo DiCaprio, I'm gone, departed
This ain't for the faint of heart, it may be for the heartless
The way I eat this beat, you'd think i was a starving artist, spazz

Spazz

Boy, it's hard to hold this bag, it's hard to keep this in
This spazz, it feel so right, not to do it it's a sin
Nah, I ain't got to be wildin' and I ain't got to be jumpin'
But you feel the walls humming, there's now people coming
Now they ain't smoking that good, ain't finna do nothing bad,
But they on Jesus juice so they probably gon' spazz
Hollering one one six, see it tatted on they wrist
Cause they ain't ashamed of nothing and they get it how they live
The old as it gets, the new one sold the "geegee"
Got the spazz on in the game, cause we know we're about to win
And then I never said I was hot, but when fire gets in my bones
Got me sweatin' in the winter, got me hotter than a stove.
They probably think i done lost it, they probably thinkin I'm gone, but truth be told i done
found it
I'm Gucci and I'm gone
I'm better than I ever been and truth done hit me, settled in
I'm spazzin on these people they don't want it, but they gettin itSpazz
