

Hey Lady

baLance and the Traveling Sounds

[Chorus]

Hey Lady!

Tell me what's your name

Maybe a little bit later

You can save a dance for me

Save a dance for me

Hey Lady!

What's your name

Maybe a little bit later

You can save a dance for me

Save a dance for me

[Verse 1]

Moonlit skies in the city of dreams

A super star standout and I'm k**in' the scene

It's like 1:15, me and BTS

Dance floor jumpin', the honeys lookin' fresh to d**h

Better said, we in for a k**in'

Window to the wall, floor to the ceiling

It's true livin' we just getting it in

Paid shorty a glance, she shot me a grin

Tipped her my brim, this got the making of a nice evening

It got the right vibe, I can't fight the feelin'

So I won't, just order up another Long Island

Then we to the dance floor wildin'

Made my way towards the crowd

That's when I found honey with the smile and I was diggin' her style

No matter what the question, I expected a yes, when I approached her

So I walked over and said

[Chorus]

[Verse 2]

Yo baby had moves, she a handful

DJ kept givin' us something to dance to

Offered her a drink before round 2

So we could take the time to be properly introduced

Finally got to talk and swap info

We was on the same page, same M.O

Up close, she was eye candy to the utmost

Showed her who was boss with a shot of patron
(Uh oh) You could feel it in the air
By the way she smiled, when I whispered in her ear
It was crystal clear, the mood was right
Slipped the invite and the move was right
You got friends, I do too, Plus it's only 2
And you'd be a liar, if you say it isn't true
Take my hand, we gon' shake in a few
Im'a roll one up, then we gon' do what we been waitin' to do
Come on!

[Chorus]

[Bridge]

Save a dance for me
Ooooooooooh
Come on
Ooooh dance with me
Shake it for me baby
Shake it for me, mama
Come on, dance with me
Yeah
Let's go!

[Chorus]

Hey Lady!
Tell me what's your name
Maybe a little bit later
You can save a dance for me
Save a dance for me (Come on!)
Hey Lady!
Tell me what's your name (Tell me what's your name)
Maybe a little bit later
You can save a dance for me
Save a dance for me (Come on)

[Outro]

Save one (Save a dance for me)
Save one (Save a dance for me)
Save one (Save a dance for me)
Save a dance for me
Save a dance for me
Save one (Save a dance for me)
Save one (Save a dance for me)

Save one (Save a dance for me)
