

I Get the Picture

Mitchell Tenpenny

[Verse 1]

It's like you wanted me to really feel that heartbreak
Like you knew I'd see the writing on your wall
And if a picture's worth a thousand words, baby
You just said it all
It's like you want the whole wide world to see you're happy
Like you need to prove to me that you moved on
And while I'm burning every real one that you left me
This one won't get gone

[Pre-Chorus]

Now I finally understand

[Chorus]

The way you're holding onto that man
You couldn't fit a grain of sand between you
Yeah, girl, I see you
I see he bought your favorite drink, that Sex On the Beach
The way you used to smile at me, he gets you
And I get the picture, I get the picture
Ooh yeah, I get the picture

[Verse 2]

It's like you wanted me to tear this town up drinking
Like you're begging me to take some new girl home
Yeah, you might as well have poured the shots
'Cause the shot of you and him is just as strong
And it's hanging on

[Chorus]

Like the way you're holding onto that man
You couldn't fit a grain of sand between you
Yeah, girl, I see you
I see he bought your favorite drink, that Sex On the Beach
The way you used to smile at me, he gets you
And I get the picture, I get the picture
Ooh yeah, I get the picture

[Bridge]

Now I finally understand

That you and me will never be you and me again

[Chorus]

The way you're holding onto that man
You couldn't fit a grain of sand between you

Yeah, girl, I see you

I see he bought your favorite drink, that Sex On the Beach

The way you used to smile at me, he gets you

And I get the picture, oh, I get the picture

Oh, I get the picture

[Outro]

Oh, I get the picture, oh, I get the picture, oh, I get the picture

Oh, I get the picture, oh, I get the picture, oh, I get the picture
