

A Wolf In Geek's Clothing

The Naked and Famous

[Verse 1]

Don't sweat
Take a bow
Don't fret
It's over now
Overflow
Shake a fist
Howling at
The emptiness

[Chorus]

Felt something
Starts to burn
Fades away
The wind, it turns
Ashes flow
Moon is glow
Run away
Forget the day

[Verse 2]

Down and out
Nothing's doubts
Let's get
The molting out
Make a space
Set it free
Tug or pull
They will see

[Chorus]

Felt something
Starts to burn
Fades away
The wind, it turns
Ashes flow
Moon is glow
Run away
Forget the day

Forget the day, forget the day, forget the day, forget the day, forget the day
