

Here

Mitchell Tenpenny

While I'm here
I wanna fix my daddy's pick up and disappear
Put the pedal to the floor and the past in the rearview mirror
Just drive
Keep the dream alive
You only get one life
I'm gonna live it
While I'm here I wanna go too far
I wanna play too hard
I wanna live it up 'cause I know
I only got so many years
I wanna lose myself
In someone else
I wanna feel it all
Do everything I wanna while I'm here
While I'm around
I wanna get that peace of mind thing figured out
Find a red-hot honey that won't go running if the money runs out
Oooh and it always runs out
But that ain't what it's all about
So while I'm still around
Down here I wanna go too far
I wanna play too hard
I wanna live it up 'cause I know
I only got so many years
I wanna lose myself
In someone else
I wanna feel it all
Do everything I wanna while I'm here
(Do everything I wanna while I'm)
(Do everything I wanna while I'm)
(Do everything I wanna while I'm)
(Here) Tick tock that clock on the wall
Only goes around so many times
That bump bump thump in your chest
Yea it's only gonna work for a little while Tick tock that clock on the wall
Only goes around so many times
That bump bump thump in your chest
Yea it's only gonna work for a little while So while I'm still around
Down here I wanna go too far
I wanna play too hard
I wanna live it up 'cause I know

I only got so many years
I wanna lose myself
In someone else
I wanna feel it all
Do everything I wanna while I'm...
I wanna go too far
I wanna play too hard
I wanna live it up
Do everything I wanna while I'm...
I wanna lose myself
In someone else
I wanna feel it all
Do everything I wanna while I'm here
