

# The Way Things Go

Thomas Rhett

[Verse 1]

You know when you're young  
And you know everything  
The sky is the limit  
And the grass is a little more green  
Don't matter where you are

Yeah I coulda swore back when I was 15  
I'd go to college and get my business degree  
I never made it that far  
I got a big ol' wrench in my plans  
And put this guitar in my hands

[Chorus]

So much for crystal balls and wishing on stars  
As you're watchin' them fall to the ground  
Yeah you can dream big or you can dream small  
But it all comes down to the luck of the draw, so I've found  
Cause it's gonna rain as soon as you wash your car  
And as sure as you go on and give up your heart, a curve gets thrown  
That's the way things go

[Verse 2]

Yeah I would've tattooed her name on my arm  
If you woulda asked me  
I would've bet the whole dang farm, and more on us  
So much for her being my meant to be  
She changed her mind like the wind, and the joke was on me  
She left me in the dust  
If she hadn't left my heart black and blue  
I would've never found you

[Chorus]

So much for crystal balls and wishing on stars  
As you're watchin' them fall to the ground  
Yeah you can dream big or you can dream small  
But it all comes down to the luck of the draw, so I've found  
Cause it's gonna rain as soon as you wash your car  
And as sure as you go on and give up your heart, a curve gets thrown

That's the way things go

[Bridge]

You'll never know if you took the right fork in the road  
Until you get where you're going and it all unfolds

[Chorus]

So much for crystal balls and wishing on stars  
As you're watchin' them fall to the ground  
Yeah you can dream big or you can dream small  
But it all comes down to the luck of the draw, so I've found  
Cause it's gonna rain as soon as you wash your car  
And as sure as you go on and give up your heart, a curve gets thrown  
That's the way things go
