

# God Damn it

## Illenium & Call Me Karizma

[Intro]

If there's a God, why'd he make me?  
All of these flaws is all that I see  
If there's a God, I don't believe  
Someone as perfect as you would love me  
God damn it

[Verse 1]

Praying to a ghost, hoping he gets it  
The last three girls I fucked didn't listen  
The last two pills I took haven't kicked in  
Having these one night stands with addiction  
Now I gotta catch a red eye to Michigan  
Playing a show, then a girl that I'm getting with  
Fuck it I'm young, I can act like an idiot  
How many sins I gotta make till I get the hint?

[Pre-Chorus]

But shit, it's 4 AM, pouring rain out  
Bored again, so I break down  
Go and send more than "hey" now, now (yeah)  
I fucked up, of course I did  
The more I think now  
I should quit, forfeit the crown  
Give this up to not let you down again

[Chorus]

If there's a God, why'd he make me?  
All of these flaws is all that I see  
If there's a God, I don't believe  
Someone as perfect as you would love me  
God damn it

[Drop]

(If there's a)  
God damn me  
God damn it (everything)  
I want you  
God damn it  
God damn me

God damnit (everything)

I want you

God damnit

[Verse 2]

Baby, you're a ghost, why are you missing?

Maybe 'cause I haven't hit you back in a minute

Maybe 'cause I flirt with every girl in existence

I blame it on distance, that I'm being distant

But I don't fucking care, I gotta sing to these kids quick

I remember never having fans that would listen

Now I got a thousand every city I visit

It's just that you ain't here now and I miss it

[Pre-Chorus]

But shit, it's 4 AM, pouring rain out

Bored again, so I break down

Go and send more than "hey" now, now (Yeah)

I fucked up, course I did

The more I think now

I should quit, forfeit the crown

Give this up to not let you down again

[Chorus]

If there's a God, why'd he make me?

All of these flaws is all that I see

If there's a God, I don't believe

Someone as perfect as you would love me

God damnit

[Bridge]

God damn me

God damnit

I want you

God damnit

God damn me

God damnit (everything)

I want you

God damnit

[Drop]

(If there's a)

God damn me

God damnit (everything)

I want you

God damnit

God damn me

God damnit (everything)

I want you

God damnit
