

# Canadian Goose

## Lil Uzi Vert

I woke up in the morning, brush my teeth smack my bitch ass  
All I do is think about the cash  
Yeah, what, getting all this cash  
Yeah, what, I'm 200 on the dash  
Lil Uzi ooh, I got hella groupies  
Smoking Backwoods I don't fuck with doobies  
Copped the double plus cause I'm rocking Ksubi's  
I fuck with my same hoes I don't trust these newbies  
990 that's the Newbies ya  
Smoked that boy like he is a loosie ya  
On the xan hear a noise I load it up  
All these diamonds ain't nobody cold as us  
Literally I'm cold as fuck  
I need Canadian Goose  
I need to get a Moncler  
Diamonds so cold need some soup  
Driving around in a what  
Saint Laurent all on my boots  
Saint Laurent all on my boo  
2,000 dollar a tooth  
Lil Uzi you is the truth  
Lil Uzi you is the truth  
If you think they took my chain, boy you is a fool  
I said boy you a fool  
I just caught me a Mewtwo  
I just caught me a Mewtwo (I choose you!)  
Japanese girls stuck to me just like some glue  
All these diamonds ain't nobody cold as us  
Literally I'm cold as fuck  
I need Canadian Goose  
I need to get a Moncler  
Diamonds so cold need some soup  
Diamonds all on my teeth so I barely can talk  
Money all in my pockets so I barely can walk  
Diamonds they shine in the dark  
She from LA but she live in New York  
But I ain't worried about that  
Worried about busting them straps  
Lil Uzi ya you know I be smoking that pack  
If she gon leave then you know she coming right back  
In a Cadillac do a drive by with a mac  
When I walk in none of these hoes can relax

When I walk in know that I move with the racks  
When I walk in know that I move with the racks  
Came right in put my city on my back  
But I'm still so relaxed on a xanax  
I don't care what you did, don't love you less  
But its still Margiela all on my vest  
What a cross on my neck  
I just flew to the A  
I might go to MIA  
I ain't talking paper planes  
On the block with all my chains  
Got the money and the fame  
You a lame that's a shame  
All these diamonds ain't nobody cold as us  
Literally I'm cold as fuck  
I need Canadian Goose  
I need to get a Moncler  
Diamonds so cold need some soup
