

Stray

The Assemblée

[Verse 1]

You've seen me at my worst
When I thought all hope was lost
You've seen at my best
And still, I've fallen short
What You see of worth in me
I will never know
I'll never know

[Chorus]

I'm so thankful
That new mercies rise with the morning sun
I'm so thankful
That You've never given up on me
Please draw near
You know my heart it tends to stray
It tends to stray

[Verse 2]

Mystery of all mysteries
What You've done in my heart
Once stained by sin and shame
You've restored innocence
Why I have this second chance
I will never know
I'll never know

[Chorus]

I'm so thankful
That new mercies rise with the morning sun
I'm so thankful
That You've never given up on me
Please draw near
You know my heart it tends to stray
It tends to stray

[Bridge]

You must be greater
I must be less
You must be greater

I must be less
You can take my mess
And make it beautiful
Make it new
Oh, oh-oh, oh-oh, oh-oh, oh-oh
You deserve the best
Oh, oh-oh, oh-oh, oh-oh, oh
And nothing less
Oh, oh-oh, oh-oh, oh-oh, oh-oh
You deserve the best
Oh, oh-oh, oh-oh, oh-oh, oh

[Outro]

Let this be my crossroads
Where faith and action meet
Where looking back at my past will prove
You are faithful God
And if I've learned one thing
I know that You are good
Yes, You are good
