

# Drive You Crazy (feat. Jason Derulo & Juicy J)

## Pitbull

- Jason Derulo:]  
Do you wanna ride baby  
Cause I don't mind driving you crazy  
I heard you like to go fast girl  
Cause no, I don't run out of gas girl  
So would you let me pull up to your bumper  
In my new black car  
Girl rev up your engine, I'll push start your ignition  
So would you let me pull up to your bumper  
In my new black car  
Girl rev up your engine, I'll push start your ignition  
And let's ride... baby  
While I drive... you crazy  
Catch me on New Year's Eve, on Fox  
Bringing that Miami Heat, white hot  
She's like "papi, why you work so hard", why not?  
That's not what she says when I'm working that box  
Now ride baby, forget about the past and  
ride baby  
Once you give it up, you'll be mine baby  
Not on the first night, don't lie baby  
Cause girl I like it fast, you like it slow  
Where I'm gonna take you, you never been before  
Hit the gas until we lose control  
You in for a wild ride  
Ride it like a first class seat on a plane  
Baby, go insane, make me remember your name  
As we go up and down, roller coaster ride  
Spread it open, let me go inside  
Let me slide in between and park my stretch limousine  
When I slap that ass, you soaking wet  
We tryna get a bone, let's play fetch, baby  
I'm on deck like an old cassette  
When I'm through, you gon' want you a souvenir  
Stuff so good, make you shed a tear  
With a smile on your face from ear-to-ear  
And a tattoo that say "Juicy J was here."
