

# And Then You

Greg Laswell

How my thoughts, they spin me around  
And how my thoughts, they let me down  
And how my thoughts, they spin me around  
And how my thoughts, they let me down

How my dreams, they spin me around  
And how my dreams, they let me down  
And how my thoughts, they spin me around  
And how my thoughts, they let me down

Then there's you  
Then there's you  
Then there's you  
Then there's you

How my love, it spins me around  
And how my love, it's let me down  
And how my thoughts, they spin me around  
And how my thoughts, they let me down

Then there's you  
Then there's you  
Then there's you  
Then there's you

You know I know, that you know  
I've written it on myself if you can't tell  
With a melody that climbs and then falls  
Then falls, then falls  
Without you  
Without you

How my days, they spins me around  
And how today, it sets me down  
And how my days, they spin me around  
And how today, it sets me down

Alongside you  
Alongside you

Alongside you
