

# A Little Lime

Jordan Davis

Sounded like you said Carolina  
And I don't mean to be eavesdropping  
But are you here with the fella behind you 'cause  
Kinda looks like he's just a friend  
Oh, the next song's kinda slow  
I could pull you in close  
Spin you around then wash it down with another round of A little lime and a lot of tequila  
Still buzzing off the nice to meet ya  
Honestly, I'd like to see how this thing plays out  
Kinda wanna know all about you  
Don't mind my arms around you, I might  
Steal a kiss if I'm allowed to  
And chase this night down  
A little lime and a lot of tequila (little lime, little lime)  
Oh, a little lime and a lot of tequila (little lime, little lime)  
Looks like we're the last two  
And a bunch of dry shot glasses  
That sun pushes out the moon  
Ain't it funny how the time passes  
And hey, I know it's getting kinda late  
So baby what you say  
We don't say goodbye stay up all night just you and I A little lime and a lot of tequila  
Still buzzing off the nice to meet ya  
Honestly, I'd like to see how this thing plays out  
Kinda wanna know all about you  
Don't mind my arms around you, I might  
Steal a kiss if I'm allowed to  
And chase this night down  
A little lime and a lot of tequila (little lime, little lime)  
A little lime and a lot of tequila  
I like my hands on your hips  
I like the taste on your lips  
I'm down if you wanna dip  
We can stay and take it sip by sip A little lime and a lot of tequila  
Still buzzing off the nice to meet ya  
Honestly, I'd like to see how this thing plays out  
Kinda wanna know all about you if you  
Don't mind my arms around you, I might  
Steal a kiss if I'm allowed to  
And chase this night down A little lime and a lot of tequila (little lime, little lime)  
Oh, a little lime and a lot of tequila (little lime, little lime)
