

I'm Coming Back

baLance and the Traveling Sounds

[Intro] (scratched)

Mom, a rebel!

Watch out!

[Verse 1]

It caught his eye from the distance
Not what he envisioned, but he still witnessed
And in an instance, his whole world shook
On a solo mission, alone he stood
Took foot through the stakes that they put on his plate
Devoured these sour cowards, all in good taste
Came a long way since he went the wrong way
(I'm coming back)
He heard a song play one day, when he was in a slump
Done--Treated last place like it was second to none
Seen what he became, didn't feel the same
Hurt so much, he turned numb and couldn't feel the pain
A harsh reality some call life
If only I'd... it would be alright
Time and time again through these times, I fight
But this time I'm coming in a full steamed stride

[Chorus]

I'm comin' back, comin' back for more
Try to keep me down, but I'm standing up for more
Got my hands raised up and my head held high
And I'm comin' back
Come on!

[Verse 2]

He once carried the weight of the world
Gained strength through the wait, for the day it unfurled
Nothing's for certain, that's for sure
This he learned from the days when he raised from his worst
It gets jaw droppin' once your guard drops
Stuck between rock bottom and the hard knocks
Where hearts stop, and he almost got caught
Clawed, found his way out the land of the lost
All he knew was he had to move on
But every other time he said that, he didn't last too long

Time passes on, he's never been more focused
The kid task flipped and he hasn't even noticed
Showin' he can hold his own, he makes his way
A chance to make up for mistakes he's made
Takes the pain with a smirk, which he learned along the way
And finally reassured when he heard the song say...

[Chorus]

I'm comin' back, comin' back for more
Try to keep me down, but I'm standing up for more
Got my hands raised up and my head held high
And I'm comin' back
Come on!

[Bridge]

Ain't many stories to tell. Break it down!
I could tell you last things that'll made you believe

Oooooooooh!

[Chorus] x2
