

# What About the Love

Sam Feldt

Can you tell me who to follow?  
When there's no one left around (oh)  
You've been everything, I'm hollow  
Like the skies are tumbling down See eye to eye  
Tell me where it all went wrong  
Try to find  
Memories that keep us strong  
Oh, my fire  
It's fading but I'm holding on  
I'm holding on But what about the love we fell into?  
What about the nights I give to you?  
You're acting like there's nothing left to lose  
What about the love?  
What about the love?  
What about the love we fell into?  
What about the nights I give to you?  
You're acting like there's nothing left to lose  
What about the love?  
What about the love?  
What about the love? Can you tell me who to follow?  
When there's no one left around (oh)  
You've been everything, I'm hollow  
Like the skies are tumbling down See eye to eye  
Tell me where it all went wrong  
Try to find  
Memories that keep us strong  
Oh, my fire  
It's fading but I'm holding on  
I'm holding on  
What about the love we fell into?  
What about the nights I give to you?  
You're acting like there's nothing left to lose  
But what about the love?  
What about the love?  
What about the love? What about the love we fell into?  
What about the nights I get to you?  
You're acting like there's nothing left to lose  
But what about the love?  
What about the love?  
What about the love?
