

# Tornado

## Little Big Town

Thought you'd change the weather  
Start a little storm  
Make a little rain  
But I'm gonna do one better  
Hide the sun until you pray  
I'm a tornado  
Looking for a soul to take You're gonna see me coming  
By the selfish things that you did  
I'm gonna leave you guessin'  
How this funnel is gonna hit  
I'm a tornado  
Looking for a man to break  
Yeah, I'm gonna lift this house  
Spin it all around  
Toss it in the air and put it in the ground  
Make sure you're never found Thought you'd take a swing  
Try another girl, try another night  
But it's the pain that brings my force of nature back to life  
I'm a tornado  
More disturbed than an F5 Hey, I'm gonna lift this house  
Spin it all around  
Toss it in the air and put it in the ground  
I'm gonna lift this house  
Spin it all around  
Toss it in the air and put it in the ground  
Make sure you're never found...  
Oh, yeah  
OOOOOOOOOOO  
HMMMMMMMMMM I'm gonna lift this house  
Spin it all around  
Toss it in the air and put it in the ground  
I'm gonna lift this house  
Spin it all around  
Toss it in the air and put it in the ground  
Make sure you're never found The winds are getting stronger  
And the sky is falling through  
And you ain't got much longer  
'Til the rage rips off the roof  
I'm a tornado  
And I'm coming after you... Hmmm...  
Hmmm...  
Hmmm...
