

# Shoe Shopping

## Old Dominion

Some don't last the way they should  
Some make you feel good for a little while  
And then you throw 'em away  
Some are up on a shelf for some other day  
Some are high dollar, some ain't worth a dime  
But you keep 'em anyway Everybody's looking for something  
So how do I catch your eye, eye, eye If you're shoe shopping walk a mile with me  
Slip a Cinderella slipper right on your feet  
Take my arm, strut down the street tonight  
(Strut down that street tonight)  
If you're downtown on the browse about  
Looking for the perfect fit, how's about  
Some high-heel, high-top, pump 'em up, flip-flop  
Heads-up, lucky penny loafer on a sidewalk  
Patten leather, blue suede, tailor made, whatever you like  
If you're shoe shopping, try me on for size  
You're stepping on cracks, you're breaking your back  
You're working so damn hard just to make it look easy  
Come dance with me 'cause dancings free  
Let me sweep you right off your feet  
Whatever your style is, girl, that's what mine is  
I could go good with your eyes If you're shoe shopping walk a mile with me  
Slip a Cinderella slipper right on your feet  
Take my arm, strut down the street tonight  
(Strut down that street tonight)  
If you're downtown on the browse about  
Looking for the perfect fit, how's about  
Some high-heel, high-top, pump 'em up, flip-flop  
Heads-up, lucky penny loafer on a sidewalk  
Patten leather, blue suede, tailor made, whatever you like  
If you're shoe shopping, try me on for size  
Yeah, everybody's looking for something  
So how do I catch your eye, eye, eye If you're shoe shopping walk a mile with me  
Slip a Cinderella slipper right on your feet  
Take my arm, strut down the street tonight  
(Strut down that street tonight)  
If you're downtown on the browse about  
Looking for the perfect fit, how's about  
Some high-heel, high-top, pump 'em up, flip-flop  
Heads-up, lucky penny loafer on a sidewalk  
Patten leather, blue suede, tailor made, whatever you like  
If you're shoe shopping, try me on for size

Try me on for size, try me on for size  
Never know unless you try
