

Love the Haters

Olivia Rodrigo & Madison Hu

U gotta love the haters who criticize your art do everything they tell you because they're really smart:

Hey Paige touch up your lips Thank you for the make up tips

Yo Frankie you look weak check out my brand new fiktik

You gotta love the haters and all they're helpful words

They'll make you super gorgeous so u don't look absurd

Boo Frankie you can't sing ill auto tune everything

There's no action I'm so bored here's a robot overload

You gotta love the haters they tell u when u stink

They give u all the answers so u don't have to think

Pop is awful how bout some good ol' country tunes now we've got a big old player and this guy with spoons

Country tunes I say heck no how bout some awesome techno

So what do u think have we gotten greater??

This guy says girls stink...

Were dudes now u gotta love the haters (gotta love the haters) u gotta love the haters u gotta love the haters

U gotta love the haters

I'm sorry I know I messed up and it's probably wrong
