

Our Song

Hudson Thames

[Verse 1]

It's twelve-o-three, nowhere to be
I could use a drink and I could use somebody next to me
I got no idea, got no ID
So imma check my phone and see if someone texted me

[Pre-Chorus]

Always the same crowd
But when I walk in the room
There's someone new now
She makes it so loud

[Chorus]

I can't stop singing along
Why does one night have to be wrong
Like it or not, everyone's gone
Turn off the lights, cause baby this could be our song

[Verse 2]

It's three fifteen, just you and me
And the kid in the back who is so high that he fell asleep
I'll play guitar, you sing with me
But the only song that I know how to play is Billy Jean

[Pre-Chorus]

Oooo
I'm over this crowd
Mmm mmm
Oooo
Let's get around now
Just tell me you're down

[Chorus]

I can't stop singing along
Why does one night have to be wrong
Like it or not, everyone's gone
Turn off the lights, cause baby

[Bridge]

I can't stop

I can't stop (never)
I can't stop
Honey, don't you know that
I can't stop
Cause baby this could be our song

[Verse 3]

It's five-o-three, it's time to leave
Girl you look so sexy lying next to me
It's five-o-three and soon you'll see
That I'm not your idea of me

[Outro]

I can't stop singing along
Why does one night have to be wrong
Like it or not, everyone's gone
Turn off the lights, cause baby
I can't stop, can't stop singing along
I can't stop, can't stop, can't stop, baby
I can't stop, hey
I can't stop
Cause baby this could be our song
