

No Other One

Weezer

[Intro]

Hoo!

[Verse 1]

My girl's a liar
But I'll stand beside her
She's all I've got
And I don't wanna be alone
My girl don't see me
When she's with my friends
She's all I've got
And I don't wanna be alone

[Chorus]

No, there is no other one
No, there is no other one
I can't have any other one
Though I would, now I never could with one

[Verse 2]

All of the drugs she does
Scare me real good
She's got a tattoo
And two pet snakes
Nobody knows me like her
Nobody knows her like me
We're all we've got
And we don't wanna be alone

[Chorus]

No, there is no other one
No, there is no other one
I can't have any other one
Though I would, now I never could with one

[Guitar Solo]

[Chorus]

No, there is no other one
No, there is no other one

I won't have any other one
Though I would, now I never could with one
