

# On Mine

## Diplo & Noah Cyrus

Diplo & Noah Cyrus On Mine  
Imagine what we could, what we could be  
Breathing in, breathing in, breathing in, breathe  
Feel this, what a great, what a great mood  
Of you  
Don't run, 'cause when we run, oh, we run deep  
Cling to, cling to me when you can't sleep  
Don't let this be the last, be the last one  
Mmm (Be the last one)'Cause I really wanna know you better  
Wanna put your lips on mine, on mine, on mine, on mine, on mine  
I wanna get to know each other  
Wanna feel your skin on mine, on mine, on mine, on mineOn mine, on mine, on mine  
On mine, on mine, on mine  
Love on, on my skin, keep it that way  
Maybe, it will be, be enough to stay  
Oh, can you see the potential in this?  
Oh, can you see it?'Cause I really wanna know you better  
Wanna put your lips on mine, on mine, on mine, on mine, on mine  
I wanna get to know each other  
Wanna feel your skin on mine, on mine, on mine, on mineOn mine, on mine, on mine  
On mine, on mine, on mine  
On mine, on mine, on mine  
On mine, on mine, on mine, yeah'Cause I don't know if I can walk this world alone  
Yeah, I don't know if I can do it, baby, tell me  
Oh, can you see the potential in this?  
Oh, can you see it?  
'Cause I really wanna know you better  
Wanna put your lips on mine, on mine, on mine, on mine, on mine  
I wanna get to know each other (Oh, oh)  
Wanna feel your skin on mine, on mine, on mine, on mineOn mine, on mine, on mine  
(On mine, on mine, on mine, on mine, on mine)  
On mine, on mine, on mine
