

# Better Life

P!nk

[Verse 1]

I've been up late watching you breathe  
Wondering if you're gonna leave  
Don't tell me what you see  
That you actually believe it  
Fuck, I'm blue  
And all those photos that you like of a better life, better wife, better nights, better high  
Goddamn right I miss drinking  
Yeah, I do

[Pre-Chorus 1]

But I've been up late nights  
Staring at the street lights  
All the cigarette smoke, can't escape a closing window  
And my head's like "What happened to, it's alright?"  
Baby, It's not alright  
What if we're a closing window?

[Chorus]

But I can't shake the feeling  
That you picture a better life, better wife, better nights, better high  
I can't shake the feeling (I can't shake the feeling)  
Do you picture a better life?

[Verse 2]

I found myself up late feeling kinda jealous  
Looking at the bullshit, other people's wellness  
And it's got me thinking  
It's just not you (not you)  
I've been all night looking in the eyes of my baby  
Right in front of me, what a gift, so amazing  
Oh, that's what's true

[Pre-Chorus 2]

But I stay up late night  
Screaming at the street lights  
All the cigarette smoke, filling up these hopeless lungs  
Oh, and my head's like "What happened to, it's alright?"  
(What's happened?)  
Baby, It's not alright  
I feel like a closing window

[Chorus]

But I can't shake the feeling (No, I can't shake the feeling)

That you picture a better life, better wife, better nights, better high  
I can't shake the feeling (I can't shake the feeling, my baby)  
Do you picture a better life?

[Bridge]

I can't seem to understand it  
How did we get so low?  
No, no, no  
I can't seem to understand it  
How did we get so low? (How?)  
No, no, no

[Chorus]

But I can't shake the feeling (I can't seem to understand it, how did we get so low?)  
That you picture a better life, better wife, better nights, better high (no, no, no)  
I can't shake the feeling (I can't seem to understand it, how did we get so low?)  
Ooh, do you picture a better life?

[Outro]

Oooh  
Do you picture a better life?  
Ooh, do you picture a better life?  
And I wonder, and I wonder  
Do you picture a better life? (Mmm, can't shake the feeling)  
And I wonder (I can't shake the feeling)  
Do you picture  
Do you picture a better life?
